

Reproducibility, Validity, and Integrity in Scholarly Research: Questions Seeking Answers

Carl Taswell

Brain Health Alliance, Ladera Ranch CA, USA

BHAVI Symposium online 9 October 2024

Questions Seeking Answers

- What accountability for willful disregard of reproducibility, validity, and integrity in scholarly research?
- How should we heal and cure the worsening 4G problem in academia of *Grooming, Gleaning, Gaslighting, and Ghosting*?
- What new nosology and new metrics should we develop to evaluate and measure collective, community, social, and public health?
- What must we do to end the information wars that threaten to destroy democracy?
- What can we do to promote *people talking to people with civility, courtesy, tolerance, and respect*?

Profiles in Courage and Leadership

- F. D. Roosevelt: “The only thing we have to fear is fear itself.” “We must be the great arsenal of democracy.” “The test of our progress is not whether we add more to the abundance of those who have much; it is whether we provide enough for those who have too little.”
- H. S. Truman: “The buck stops here.” “I never did give anybody hell. I just told the truth and they thought it was hell.” “Whether discrimination is based on race, or creed, or color, or land of origin, it is utterly contrary to American ideals of democracy.”
- J. F. Kennedy: “Ask not what your country can do for you — ask what you can do for your country.”
